5. Enter contract information (attach contract from email, if needed).
6. Take picture of front and back of check on a dark, well lit surface.
7. Email notifications will be sent to all parties entered.

How ZOCCAM Works

Checks are scanned by the consumer or business via ZOCCAM's integration of industry leading Mobile Capture technology without saving the check image on the device. ZOCCAM creates an X9 File and securely transmits an Image Cash Letter to the Escrow Recipient's bank for clearing, eliminating the cost, and time to sort and ship the checks.

ZOCCAM Delivers Streamline Deposit Preparation

The ZOCCAM mobile application allows the consumer and business employees to capture images of checks anywhere, at any time. Regardless whether the consumer is out of state or it's your receptionist at the office, checks can be deposited without the hassle of deposit preparation and the security risk of keeping the consumer's checks.

Improve Efficiencies & Accelerate Funds Availability

- Files can be transmitted 24/7 • Make deposits from multiple sites across the country
- Eliminate the cost and time associated with handling paper checks

Service Provided by Hill Country Titles - No Additional Fees Apply
